Disparity Study
PUBLIC FORUM

The City of Hampton and Schools is conducting a second Disparity Study and invites all interested parties to a public forum. The Disparity Study will review the utilization of Minority- and Women-owned Business Enterprises (M/WBE) for the City of Hampton and Schools (City). The study will examine 1) the procurement of construction, architecture and engineering, professional services, goods and supplies, and services for the City; 2) the subcontracting practices of prime contractors who do business with the City, and 3) the anecdotal evidence collected from a broad cross section of M/WBE and non-M/WBE firms.

The purpose of the public forum is to provide interested firms with information about the disparity study, i.e. study objectives, scope, schedule, etc. MGT Consultants will be available to answer questions about the study or hear about business owners experiences doing business, or attempting to do business, with the City.
