(Checks payable to Hampton City Treasurer)

The Peninsula Clean Business Forum is a coalition comprised of representatives from local Clean Community Organizations. Localities include the cities of Newport News and Hampton and the counties of James City and York. Our purpose is to promote environmental improvements in the business communities through litter control, recycling, and beautification. Quarterly meetings are held for the purpose of educating members on techniques, programs, and resources that can be used to enhance both the physical and visual environment and to recognize businesses who serve as examples to others.
