

Household Chemical Collection

- Do not smoke.
- Do not leave material in hot unventilated areas for long periods.
- When possible, keep products in original container and ensure lids or caps are tight.
- Place items securely in boxes for transport.
- To prevent unfavorable chemical reactions, do not put multiple containers in bags or soft containers where they may spill or break.
- If you have a leaking container, place this item separately in a clear plastic bag, with newspaper or paper towels on the bottom. Secure in an upright position so it doesn't spill in your vehicle. Please notify staff that the item is leaking.
- MXI is the premiere service provider for household hazardous waste collection events sponsored by states, counties, and municipalities and provides disposal services at the VPPSA events. With a fleet of permitted vehicles, national network of terminals, staff of highly trained personnel, and a Materials Recovery Facility, MXI offers a full range of recycling and disposal services using the cutting edge of universal hazardous waste management technology.

Computer Recycling

- Since 2001, our contractor, Computer Recycling of Virginia, has erased every hard drive using software that meets or exceeds all industry standards, including the NIST 800-88. Once the wipe process is complete, any hard drive that fails the wipe process is physically destroyed.
- The mission of Computer Recycling of Virginia, Inc. (CRVA) is to place educationally-useful equipment into Virginia's schools and non-profit organizations free of charge, while promoting electronics recycling throughout Virginia.

At the collection:

- A VPPSA employee will ask which city or county you live in, and what materials you've brought. Proof of residency may be required.
- VPPSA staff will unload your vehicle. Please stay in your vehicle unless requested to do otherwise.
- There are separate drop off points for household chemicals and computers.
- Be prepared to identify your materials. If unsure, tell VPPSA staff before they begin unloading.

Thanks for your patience and cooperation.

Alternative Recycling and Disposal Sites

Best Buy accepts all computer components at no charge. Televisions are accepted at a \$25.00 charge per item. There is a limit of two TVs per day. Tube TVs smaller than 32" and flat-panel TVs - LCD, plasma, and LED - must be smaller than 50". Mobile phones are accepted at no charge. You can recycle up to three items per household per day. See www.bestbuy.com/recycling for a complete list of acceptable and unacceptable items that Best Buy recycles.

Batteries + Bulbs accepts rechargeable batteries at no charge. There is a charge of \$1.85 per pound for alkaline batteries. Compact Fluorescent Lamps are accepted at a charge of \$0.66 per bulb. Four-foot fluorescent tubes are accepted at a charge of \$0.48 per tube and eight-foot fluorescent tubes are accepted at a charge of \$0.80 per tube. *Batteries must be placed in a Ziploc-type bag and/or have the terminal ends of the batteries taped to prevent fires during shipping. Batteries + Bulbs accepts unlimited quantities.*

Goodwill Industries accepts all computer components for recycling. Goodwill accepts unlimited quantities of computer components.

Home Depot accepts Compact Fluorescent Lamps and rechargeable batteries. No fluorescent tubes are accepted.
