

Please provide cost and description of the equipment, facilities or device for certification. This application shall be submitted with a complete set of plans and specifications of the solar energy equipment, facilities or devices for which the exemption is claimed. If granted, this exemption is titled to the person owning the property on the first day of the taxable year.

I certify the above information is true, correct and complete. The equipment, facilities, or device identified is to be used primarily for the collection and use of incident solar energy for water heating, space heating or cooling or other application which would otherwise require a conventional source of energy, such as petroleum products, natural gas, or electricity, regardless of the existence of a conventional energy back-up system.
